The COSMOS in the Classroom Workshop for Science, Mathematics and Technology Teachers
North Carolina A&T State University
January 26-28, 2005

BENEFIT FOR TEACHERS

Teachers will identify and learn to use NASA resources

Teachers will learn how to use the web, to develop email lists, websites with links to simulation, virtual laboratories and to enhance their lesson plans

Hands on experience in undergraduate Physics laboratories

Teachers will learn how to integrate NASA K12 learning/teaching materials, and technology tools in the science syllabus

Teachers will put their science syllabus on line

Teachers will network within the learning community

Instructors
Dr. Floyd James: Logger Pro, Graphical analysis, information technology tools
Dr. Steve Danford: Astronomy and Astrophysics
Dr. Bill Craft: Orbital Motion
Dr. Abebe Kebede: Earth and Space Science Resources
Dr. Samuel Danagoulian: Sun-Earth Connection

To pre-register please call (336)256-2039 or email donnellm@ncat.edu or gutaye@ncat.edu
